

It's Savings Time

What a year! Our gratitude list is a long one. We had plenty of work, great workforce, and wonderful weather. We were most blessed with safety, no injuries or accidents to speak of. We had great painting weather for the most part, and over 350 satisfied customers. As always it goes fast.

If you became a new customer recently this may be your first follow up letter, if not you may have heard before:
COLD WEATHER = NO EXTERIOR WORK = LOWER PRICES

Anymore that's just fine with us; after 28 winters, we're real okay with winter. Sure a possible extended period where work slows down can be worrisome. Financial hardship isn't fun for anyone. That's why we try to encourage our customers early to recognize the saving benefits by doing all your interior projects now.

We have a special offer for our previous customers who can act now so that we may continue to stay busy. We are also happy to extend this offer to your friends and family.

The savings is substantial.

Our two+ years rate of \$42.00 per man-hour will be reduced to \$35.00 per man-hour. Also our one day eight hours, one man minimum of \$400.00 per day will be reduced to \$350.00. Our minimum of two men for an eight hour day of \$700.00 will be eliminated. Now two men for an eight hour day is \$560.00.

Give us a call A.S.A.P. to get more details and ideas that will get your project completed quickly and with cost savings.

One thing is for sure regardless of what this winter brings God is good all the time. He is our provider and has seen us through every winter since 1977. (Matthew 6:25-34)

Have a peaceful and joyous winter and may you and your family experience His grace.

Gregory J. Anderson
