WHEN THE GOING GETS TOUGH, THE TOUGH BECOME PAINTERS

Having been through economic slow downs in the early 80's and 90's we know what it takes to survive. Competition becomes fierce and crowded. It seems that so many individuals who are out of work from other trades and industries turn to painting "ON THE SIDE."

Our thoughts and prayers are with all individuals who have lost jobs or want to supplement lower income to help feed their families. All our years of experience allow us to understand that we need to "DEAL WITH IT." The way we will deal with it is to continue to commit to our customers and our workforce with fairness, integrity, and determination.

Our workforce is also committed to staying busy. In fact, if you have taken time to read this letter there is a good chance that someone on our workforce has delivered it to you in an effort to get the word out that they "NEED YOUR SUPPORT." Winter always brings less work, and we depend on the community to keep us working while we give homeowners the quality they expect. ***No matter what the project, we can help you complete it while keeping your cost down.*** We offer cost-saving tips and discounted prices on paint.

We have an incredible program that allows you to customize your project, paying only for service you want us to perform. The details are industry-changing. This program makes sense and saves you big money while you get expert professional service.

As always, since 1977, we back up everything we say with a NO DEPOSIT / PAYMENT UPON COMPLETION policy that insures satisfaction.

Go to our website for details or call Kim for a friendly, knowledgeable answer to all your questions.
